Utter failure of the past.. Nobody told me I would have to be able to tell the difference between a blue ball and a dark blue ball. Honestly, they could have chosen a different color for the "not-blue" ball. Anything other than, you know, BLUE would have sufficed, really.

For a game called Hearing, you'd think the objects would make different noises for you to distinguish between them. But alas, no.

There's not very many ambient noises to listen to either. Environments are nice though.

Flawed, but I liked it. 5/10, would get tinnitus again.. For those who played Dracula: Origin - this game is quite different, more of the cookie-cutter HO/puzzle/adventure kind, albeit with special abilities and two different endings based on your decisions, which makes it distinctive in this genre. It also has 2D painted art instead of the previous episode's 3D.

Pros:

- + Beautiful graphics, especially some HO scenes and the character art
- + The UI is very modern
- + Atmospheric and catchy music
- + The puzzles of the first half of the game are quite easy
- + It's nice to see all the items I need to find in a HOS right from the beginning
- + Interesting to see the locations of the previous game (Dracula: Origin)

Cons:

- The character accents sound horribly fake and exaggerated, especially Dracula's and the women's
- They seem to have reused a lot of the music and sound effects from Sherlock Holmes and the Hound of the Baskervilles
- The UI is a bit *too* helpful in Difficult mode, it shouldn't sparkle interactable items at all
- The late-game puzzles are too difficult, had to skip almost all of them on the first playthrough
- The item names in the HOS are often imprecise and the game sometimes doesn't accept potential matches because the creators thought of a different but similar item in the scene
- the same "collect pieces of shields/coats of arms" story progression as in the Sherlock Holmes game, they could have come up with something a bit more original
- also, many puzzles repeat from the Sherlock Holmes game

Suggestion:

~ I like the option for setting difficulty, but it would be nice to add advanced difficulty options for those who want to customise it. Eg. I like easy puzzles, but also don't like when every interactable items shine and sparkle.. Good game but too short. I wish the music from the beach was playing in the background constantly but quieter. Anyway, really nice, relaxing game.. This game is a piece of junk. You get nothing but a black screen. Avoid.

0/10

Turns out the black screen gets you to the start. Terrible start. Next thing is controls don't work. Can't to on the torch and then managed to jump into a wall and get stuck.

Game actually deserves a minus rating.. I loved this one. Had an absolute blast playing it. I really enjoyed the two voice actors who are along for the ride. It made me pull out my New Yorker accent and get into it with em. If you're looking for mindless wavershooting fun, this is a game to try. If you're interested in seeing it in action, here's our video

<https://youtu.be/TFYYL2ZL16U>. Great bullet hell game!

Game is a real adrenaline rush with constant and intensive action.

I really like these musics!

The musics have their essence that makes them wonderful!

I really loved Stijn's work on this soundtrack, and he seems to be a kind of a magician of the musics...

Some of them really gave me a good memory of my life!

. This game taught me alot about life. It taught me about the rough daily lives of police men who are keeping our country safe, who come home to see their wives in bed with another man. Take to a big adventure and countless hours of fun, playing as a dog, police man (husband), cheater, or wife. This game offers lots of vengeance and could very easily be a \$60 10V10 game. My experience with this game has been unlike any other. Now i have played big title games like Dark Souls and Call of Duty, but none of them seem to match this. The adrenaline rush from playing the cheater, to the hatred of being a police trying to hunt down the cheater. If you do not already know this game is a 4 player multiplayer game. The wife and the cheater work together and the police and the dog work together also. The cheater is supposed to sneak around the big house finding his pants and his shirt, the wife uses communication or marks clothes or items like tazers that the cheater can pick up. The police and his dog are trying to hunt down the cheater and might have to punch the wife if she gets in his way. The cheater can pick up items like a tazer to taze the police to buy him some time and the police can do the same back but he would then punch the cheater to death. Once the cheater has collected all of his clothes he must need to find a key to unlock the front gate or a hidden door in the basement. The wife can find pepper spray around the house and pepper spray the police to get him off of the cheater and buy him more time. The dog can pee or poop around the house as traps for the cheater, he can slip on them stopping him from moving and letting the police catch and maybe kill him. Now let me stop bragging and explaining the game. Get out there and enjoy countless hours of fun with your friends or just some random people!!!!!!

Thank you. I picked this game up on a whim some time ago. Zombie Exodus is a very well written choose-your-own-adventure story that grips you and keeps you within minutes of starting. All of the events are well described, the characters are unique and have their own stories.

Everything is so well described, it paints such a vivid picture in your mind of what's going on and what you're seeing. The story is so good and the events are so memorable, that even many months later I can still remember the events that ocured and the choices I made from start to finish.

I would absolutely recommend this game.. The game is so full of bugs its literally unplayable for more than 1 season. Can keep top riders. Can't get promoted even though you have great results.

The realism you would expect from a manager game is not there. Signings and promotions are based on a made up system by the makers of the game.

This title needs a complete makeover before I would recommend it again.

I hope the makers will feel some shame and do a great 2019 version.. You can tell from the recycled animations and the somewhat weird gameplay mechanics that there were costs cut here and there to make up for expenditures in other areas.

You can also tell by the game balance that the dev team behind this game poured their hearts out to create this game. It obviously lacks the production quality of AAA Kart racing titles, but in terms of mechanics im quite honestly pleasantly surprised by every step they took off the beaten path to provide an enjoyable experience.

It doesnt have online tho so i dearly hope they get that going.

If you think about deciding between all stars fruit racing and this game, pick this one.. Fun game. Surprisingly challenging. Just remember the curve is both your friend and your worst enemy.. Wonderful puzzle game with a mix of dexterity and heavy thinking.. I purchased Pitch-Hit baseball and instantly loved it, I am a big baseball fan but that aside the game is just really fun. It forces you to get some high scores before moving onto the next mini game which is great. The best part of the game is just hitting the ball and then catching it moments later, actually very smooth and intuitive. Will be trying to take down all the high scores over the next few weeks.
